

Know everything about a case  
the moment it's scheduled.

# SEC<sup>3</sup>URE Link

You've just received a text from the practice scheduler, and they need you for a case, but information about when and what to bring with you is missing. It's difficult to organize everything at one time because not everyone uses the same system and things can be missed. We know all of this stands in the way of your productivity so we built a technology that makes it easy to coordinate everything and everyone all at once.

**SEC<sup>3</sup>URE Link** connects all procedure elements on one system, allowing all participants to communicate with each other in real time from the moment a procedure is booked through completion.

The technology uses the **SEC<sup>3</sup>URE Passport** to link together only trusted participants. And because only **SEC<sup>3</sup>URE Passport** holders can be scheduled, you now have a huge advantage over your competition.

With **SEC<sup>3</sup>URE Link** you're always prepared for your next case and are able to plan around changes as soon as they happen.

## SEC<sup>3</sup>URE Link gives you the clarity to do your job:

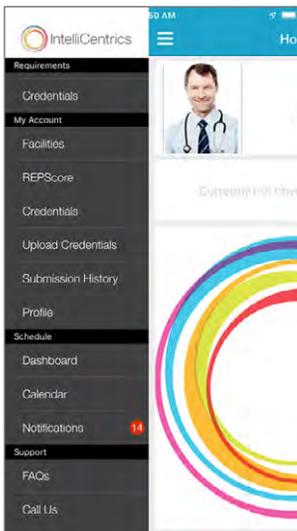

- + As a **SEC<sup>3</sup>URE Passport** holder, you're already verified and cleared to be scheduled.
- + Each procedure is perfectly coordinated with everyone, so you have all the details the moment it's scheduled.
- + You gain full visibility into scheduled procedures and last-minute changes, so you can plan around changes and focus on selling more.

**SEC<sup>3</sup>URE Link** is now included in the **SEC<sup>3</sup>URE Passport 2.0**, which comes loaded with our newest innovations that will make a huge difference in how you put your credentials to work.

Ensure everyone around the patient is trusted.

## SEC<sup>3</sup>URE Link
