

Have an ally when it comes
to trust and compliance

SEC³URE Entity

Always monitored. Compliance you can trust.

Supplier compliance plays a big role in protecting your reimbursements and brand reputation. You've already got a process to validate and qualify your vendor rep population, but what about their companies or your other business associates?

You need to make decisions on which suppliers to work with quickly but the time and effort it takes to fully vet them can be daunting for your team. That's where SEC³URE Entity comes in.

With SEC³URE Entity, you have the technology you need to trust that your suppliers are always compliant because the sanction checks are performed on your behalf, at no cost.

Here's how it works:

- + We verify and monitor every supplier you do business with.
- + You have visibility into which suppliers are compliant or not.
- + We alert you if any business or its associates are on an exclusion list.

Here's what life looks like with SEC³URE Entity:

- + You can trust every supplier because they are all vetted on one platform.
- + You can easily add new supplier companies to the monitoring list.
- + Your reputation and reimbursements are always protected.

What exclusion lists are monitored:

- Drug Enforcement Agency (DEA)
- Office of Inspector General (OIG)
- Federal Drug Administration (FDA)
- System for Award Management (SAM)
- Office of Foreign Asset Control (OFAC)
- Multiple State Office of Inspector General

With IntelliCentrics, everyone wins.
