

Have an ally when it comes
to trust and compliance

SEC³URE Entity

Always monitored. Compliance you can trust.

Supplier compliance plays a big role in protecting your reimbursements and brand reputation. You've already got a process to validate and qualify your vendor rep population, but what about their companies or your other business associates?

You need to make decisions on which suppliers to work with quickly but the time and effort it takes to fully vet them can be daunting for your team. That's where **SEC³URE Entity** comes in.

With **SEC³URE Entity** you have the technology you need to trust that your suppliers are always compliant because the monitoring and sanction checks are being done on your behalf.

Here's How it Works:

- + We verify and constantly monitor every supplier you do business with.
- + You get real-time reporting so you know which suppliers you can trust.
- + We alert you if any business associates appear on an exclusions list.

Here's what life looks like with SEC³URE Entity:

- + You can trust every supplier because they are all monitored in one place.
- + You can easily add new suppliers in a few clicks, and we'll take it from there.
- + Your reimbursements are always protected because every supplier is trusted.

What exclusion lists are monitored:

- Drug Enforcement Agency (DEA)
- Office of Inspector General (OIG)
- Federal Drug Administration (FDA)
- System for Award Management (SAM)
- Office of Foreign Asset Control (OFAC)
- Multiple State Office of Inspector General

With IntelliCentrics, everyone wins.
