

Know everything about a case
the moment it's scheduled

SEC³URE Link

You've just received a text from the practice scheduler, and they need you for a case, but information about when and what to bring with you is missing. It's difficult to organize everything at one time because not everyone uses the same system and things can be missed. We know all of this stands in the way of your productivity so we built a technology that makes it easy to coordinate everything and everyone all at once.

SEC³URE Link connects all procedure elements on one system, allowing all participants to communicate with each other in real time from the moment a procedure is booked through completion.

The technology uses the **SEC³URE Passport** to link together only trusted participants. And because only **SEC³URE Passport** subscribers can be scheduled, you now have a huge advantage over your competition.

With **SEC³URE Link** you're always prepared for your next case and able to plan around changes as soon as they happen.

SEC³URE Link gives you the clarity to do your job:

- + As a **SEC³URE Passport** subscriber, you're already verified and cleared to be scheduled.
- + Each procedure is perfectly coordinated with everyone, so you have all the details the moment it's scheduled.
- + You gain full visibility into scheduled procedures and last-minute changes, so you can plan around changes and focus on selling more.

SEC³URE Link is now included in the **SEC³URE Passport 2.0**, which comes loaded with our newest innovations that will make a huge difference in how you put your credentials to work.

Ensure everyone around the patient is trusted.

SEC³URE Link is exclusively available on the **SEC³URE Ethos** technology platform, which gives you access to industry-leading innovations that help you do more with your trusted status.

Home Page - Locate SEC³URE Link in the SEC³URE Mobile App or on SEC3URE.com

Calendar - See all of your cases and meetings in one place

Notifications - Communicate in real-time the minute you're scheduled for a case or meeting
